A LEGACY OF FLAVOUR, A FUTURE OF DELIGHT

Founded in 1939,
Saclà has grown into a
global food company,
bringing Italian flavour
to tables in over 70
countries worldwide.

We were born in Asti, Piedmont, the gastronomic heart of Northern Italy, from the brilliant idea of transforming surplus local vegetables into delicious products to be enjoyed all year round.

“ We’ve always elevated everyday food to extraordinary heights, creating moments that enrich lives.

From our first pitted olives and preserved vegetables, we started our culinary journey over 80 years ago. Today, our expertise has grown into a rich and versatile range, designed to meet emerging trends and the tastes of international markets.

As a leading Italian brand for olives, vegetables in oil and pickled vegetables, we are internationally loved for our condiments, from Pestos to Sauces.

LIVING

TASTEFULLY

FOOD IS A PHILOSOPHY OF LIFE

We sprinkle a little magic into everyday moments, thanks to the power of authentic Italian flavours.

Our dream?

To bring people together, share our love of food with the world, and spark a real appreciation for life's simple delights.

Our secret ingredient?

Care, passion and creativity.

As Italians, we simply love exploring and creating new ways to improve our recipes, always respecting tradition.

This very spirit is what we were born with and it still drives our research today – always innovating with new ingredient combinations and formats, to enhance the flavour in each bite.

“ We believe every day deserves that extra touch.

VEGETABLE GARDEN

From the
garden
to the
ingredients
for a
tastier life.

We value fresh, genuine ingredients, whole or finely cut, using different preservation techniques to make each flavour unique.
For Saclà, these are the ingredients for a tastier life.

WE

WISH

TO FUEL

JOYFUL

LIVING,

ONE BITE

AT A

TIME

The vision we pursue goes far beyond the table.

Our commitment to the environment drives our pursuit of a cleaner and safer world, achieved by reducing energy consumption and pioneering sustainable production at our Castello d'Annone plant.

Our commitment to the community pushes us to protect our territories through dedicated investments and the development of responsible supply chains.

Our care for people makes us look out for our team's well-being through comprehensive welfare and continuous training.

All this because innovation, responsibility and transparency are in our nature.

**“ That’s why we’re a
Benefit Corporation,
openly sharing
our progress
transparently.**
